Model Higher Secondary School

PROJECTS

Automated Resume Screening System Python

- Developed a Python-based resume analysis and shortlisting system.
- Designed the system to analyse resumes and support candidate shortlisting based on relevant information.

Digital Process Monitoring System

- Developed a web application for managing student records and assignments.
- Designed the system to support organised monitoring of academic information.

Birth and Death Certificate Issuance and Archive Management System

- Developed a digital platform concept for certificate issuance and record management.
- Focused on organised storage and management of birth and death certificate records.

Smart City Portal

- Developed a responsive web portal for smart city services.
- Focused on providing an organised interface for accessing smart city-related services.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Problem Solving
Web Technologies: HTML, CSS, React.js, Node.js, Web Development, Front-End Development
Database: SQL, MongoDB, Database Management
Other: Software Development, Logical Thinking, Team Collaboration

CERTIFICATIONS

- Programming in Java - NPTEL
- Database Solution Expert - Wipro TalentNext (Ongoing)
- Frontend Development - Infosys Springboard
- Secure Network Architecture - International Conference
- TN Skills - State & District Level - Web Technology
- AI Foundations - Oracle
- Higher & Lower Grade Typewriting Certification - Government of Tamil Nadu

LANGUAGES

English, Tamil
